SUMMARY

DevOps Engineer with 3.5+ years of experience and expertise in **Terraform**, **CI/CD** automation, **AWS/GCP** cloud management, and **security/compliance** for cloud infrastructure. Owned release engineering and **CI/CD** automation for four open-source cloud-infrastructure products at Turbot HQ (9,300+ GitHub stars, 120+ merged PRs), and authored multi-cloud **compliance** modules cutting enterprise audit time 50%.

TECHNICAL SKILLS

Scripting & Languages: Python, Bash, Go, SQL

IaC & CI/CD: Terraform, OpenTofu, HCL, GitHub Actions, GHCR

Cloud Platforms: AWS (Lambda, EC2, S3, SecurityHub, GuardDuty), Azure, GCP

Containers & Orchestration: Docker, Kubernetes (working knowledge; collaborate with platform teams)

Observability: Datadog, OpenTelemetry (OTel); metrics, logging, incident triage

Security & Compliance: CIS, NIST, HIPAA, PCI DSS v4, SOC 2, FedRAMP; IAM, RBAC

Linux & Version Control: Multi-distro Linux (CentOS, Ubuntu ARM64, macOS), Git

WORK EXPERIENCE

Turbot HQ, Inc. Remote

August 2022 – April 2026

Software Engineer I

- Owned release engineering end-to-end for four open-source Go CLIs — unified **GitHub Actions CI/CD** workflows, automated Slack release notifications, and GHCR **Docker** image tagging.
- Added multi-distro **Linux** smoke tests (ephemeral environments across CentOS, Ubuntu ARM64, macOS) to the **GitHub Actions** release pipeline, hardening release safety and catching regressions before deployment.
- Authored multi-cloud **compliance** modules in HCL + SQL covering 1,000+ resource checks across CIS (**AWS**, Azure, **GCP**), NIST, HIPAA, PCI DSS v4, SOC 2, and FedRAMP frameworks; cutting enterprise **compliance**-audit time 50%.
- Authored an LLM-driven Claude Code skill automating code refactoring, deployment, and **Terraform**-driven integration testing; used it to migrate 35+ Azure cloud-governance modules to event-driven eventing, cutting resource-discovery latency 70-90%.
- Resolved a production **incident** by diagnosing a Go service stuck in a **Kubernetes** CrashLoopBackOff — investigating pod logs and status and collaborating with the platform team to restore service.
- Designed and developed an internal REST API microservice in Go using the Gin framework, containerized with **Docker** and deployed to **AWS** EC2.

EDUCATION

University of Engineering & Management (UEM) Kolkata, WB, IN

August 2019 – May 2023

Bachelor of Technology in Computer Science and Engineering

CGPA: 9.28

Relevant Coursework: Object-Oriented Programming, DBMS, Data Structures and Algorithms, Shell Scripting in Linux, Low-Level Design, High-Level Design
