SUMMARY

Accomplished **GoLang** Developer with 3.5+ years building **RESTful microservices** in **Go**, with hands-on **Azure** Cloud experience, **event-driven** pipelines, and **CI/CD** automation. Core contributor to four open-source products at Turbot (120+ merged PRs, 9,300+ GitHub stars) — built a **Go/Gin REST** microservice and cut resource-discovery latency 70–90% via an **Azure**-based migration.

TECHNICAL SKILLS

Languages: Go (Golang), Python, TypeScript, JavaScript (ES6+), SQL, Bash, HCL, C, PHP

Backend & Web Services: RESTful APIs, JSON, Microservices, Event-Driven Architecture, Distributed Systems, gRPC, GraphQL, WebSockets, OAuth 2.0, JWT, Gin, Node.js, Express.js

Cloud & DevOps: Azure (Event Grid), AWS, GCP, Docker, Kubernetes (working knowledge), GitHub Actions, CI/CD pipelines, Terraform, OpenTofu, Git

Databases & SQL: PostgreSQL, MySQL, MongoDB, DuckDB, SQLite, Redis; jsonb, CTEs, query tuning, transactions, database migrations

Security & Compliance: CIS (AWS, Azure, GCP), NIST, HIPAA, PCI DSS v4, SOC 2, FedRAMP, AWS Foundational Security Best Practices; IAM, RBAC, cloud security policies, regulatory compliance automation

AI & Automation: Agentic AI, Agentic Workflows, LLM Application Development, Model Context Protocol (MCP), OpenAI Agents SDK, Pydantic AI, Retrieval-Augmented Generation (RAG), Python automation

Testing & Quality: Unit, Integration & End-to-End Testing, Jest, Mocha, Automated CI Testing, Code Review

Core CS: Data Structures & Algorithms, Object-Oriented Design, Low-Level & High-Level System Design, API Design

WORK EXPERIENCE

Turbot HQ, Inc. Remote

August 2022 – April 2026

Software Engineer I

- Designed and built an internal **RESTful** API microservice in **Go** using the Gin framework for a greenfield build of Turbot Guardrails; secured endpoints with **OAuth 2.0** via Auth0, containerized with **Docker**, deployed to **AWS EC2**, and served as a **gRPC** client for several internal **microservices**.
- Authored multi-cloud compliance modules in HCL + SQL covering 1,000+ resource checks across **CIS**, **NIST**, **HIPAA**, **PCI DSS v4**, **SOC 2**, and **FedRAMP** frameworks — used by enterprise customers in finance, healthcare, and government — cutting enterprise compliance-audit time 50%.
- Authored an LLM-driven Claude Code skill automating code refactoring, unit test generation, and deployment; used it to migrate 35+ **Azure** cloud-governance modules from polling to push-based eventing via **Azure** Event Grid, cutting resource-discovery latency 70–90% and eliminating recurring **Azure** API throttling.
- Built a **Kafka**-based, **event-driven** pipeline where consumers asynchronously processed policy-enforcement events and fired a webhook on success; added a dead-letter queue (DLQ) to capture recurring failures, hardening reliability.
- Owned release engineering for four open-source **Go** CLIs — unified **GitHub Actions** CI/CD release workflows and automated **Docker** image tagging; core contributor with 120+ merged PRs and 9,300+ GitHub stars.
- Built the Steampipe Model Context Protocol (MCP) server end to end in **Python**, giving LLM agents real-time access to enterprise cloud data — hands-on **agentic AI** and automation experience.

PROJECTS

Lila Tic-Tac-Toe — Real-Time Multiplayer Game (2026)

Full-stack real-time multiplayer game built end to end in 4 days: a **Go**-based Nakama game server on Fly.io with **PostgreSQL**, React 19 + TypeScript front-end on Vercel. Server-authoritative anti-cheat over WebSocket, mode-aware matchmaking, optimistic UI, a top-10 leaderboard, and reconnect-into-active-match.

[repo/live](#)

CIS Benchmark → Compliance Dashboard Generator

Python CLI automating compliance-dashboard authoring for a multi-cloud governance product. Ingests **CIS** benchmark XLSX workbooks (**AWS**, **Azure**) and emits ready-to-deploy HCL dashboard config plus markdown docs; OOP resource model, custom HCL pretty-printer.

EDUCATION

University of Engineering & Management (UEM) Kolkata, WB, IN

August 2019 – May 2023

Bachelor of Technology in Computer Science and Engineering

CGPA: 9.28
